

Objective 13: Reduce the Blood Lead Levels in Children

Maryland SHIP Vision Area 3: Healthy Physical Environments
Tools, Resources, and Promising Practices
updated February 2012

Tools and Resources

[CDC Lead Prevention](#)

Includes lead prevention tips, links and resources.

[US Environmental Protection Agency](#)

The Environmental Protection Agency provides education, literature, resources and tool kits for understanding lead levels and lead poisoning in children. Additional links are provided to legislative, legal and policy matters as well as lead remission.

[US Environmental Protection Agency—Renovation](#)

EPA sponsored link to renovation and lead risks.

Promising Practices

[Pediatrician Testing for Child Blood Lead for One and Two Year Olds](#)

Encourage pediatricians to test all one and two year olds for lead exposure.
